	<ul style="list-style-type: none"> • Discussion on the feedback- The curriculum feedback emphasizes the need for AI and ML-related courses while advocating for a more practical, hands-on approach through group projects, labs, coding practicals, and assignments that apply theoretical concepts. It highlights the importance of increased guidance for students and suggests making the curriculum more research-oriented, shifting the focus from theory to practical implementation.
Suggestion	<ul style="list-style-type: none"> • All syllabus design committee members were notified and asked to submit the changed syllabus copy.
