Course Code: MC518

Semester: II
Course Name: DevOps

Class: FYMCA

Innovative Teaching Learning Adopted

Following teaching Learning methods have been adopted to teach Process Automation course.

1) Peer Learning :

For DevOps course, I've given them a task to create Project case study. They have created the projects. Finally, they need to give presentation in front of entire class about the assigned task.

Outcome: Demonstration of Project.

2) 6:3:5 Technique:

Instructor has given students 10 minutes to prepare for the topic.

Then made a group of 6 students and have given 3 minutes to note down the points. That sheet is circulated among the group and given 5 minutes to add on their points.

Outcome: Peer Learning about the topic
